

2024 Weekly Service Program

\$95 per week plus chemicals billed on the 1st of each month.

Clear Choice Pool Care will do the following every week as a part of our program:

- Vacuum pool.
- Skim surface.
- Empty skimmer and pump baskets.
- Empty automatic cleaner basket or bag.
- Brush walls and steps as needed.
- Backwash and recharge filter as needed.
- Check water chemistry and add balancing chemicals as needed.
- Fill your chlorinator, if you have one, as needed.
- Add sanitizer and specialty chemicals as needed. (Chlorine and other chemicals such as algaecide, stain/scale removers, phosphate removers, etc.)
- Schedule permitting, you can request additional cleaning visits if needed for **\$95** per visit for up to one hour.
- Any repairs up to **\$50** per visit will be done and added to the monthly bill.
- Repairs more than **\$50** will require approval and will be billed in a separate invoice.

All Weekly Service customers are required to have a card on file.

By signing up for weekly service, you agree to be billed on the 1st of the month and allow the card on file to be charged on the 5th of every month after the start of weekly service for the following:

- Each weekly service from the previous month at **\$95** per service for the first hour. (If you signed up for weekly service with your opening, your first service would be done on the scheduled opening day.)
- If any cleaning takes longer than one hour, you will be billed an additional **\$25** for each 15-minute increment after the first hour.
- Any repair charges that weren't invoiced separately.
- All chemicals that were used during the previous month.
- If you schedule your closing with us, the closing charge will be added to the final bill on the 1st of the month after the pool closing date.

Arrangements can be made if you would like to pay by cash or check. We set a payment delay of 5 days so you can see the bill before payment is processed.

Weekly Service Chemical Pricing

We will generally only use balancing chemicals and chlorinating products as needed unless specialty products are required to treat an issue such as staining or scaling. The following is a current price list of all the most used chemicals. Prices are subject to change without notice due to the rapidly changing costs. -**Updated 3/6/24**
